EXAMPLE:

In our example on the spreadsheet

- Version 1
- ICAA Airlines is flying an A310
- Callsign ICA4833 from OMDB to LEBL
- First flight is 27 Oct, but subtract 2 Days = 25 Oct 09 for database entry
- Last flight is 23 Mar, +2 days = 25 Mar for database entry
- The flight will enter ORBB FIR at TASMI on Wednesday (day 3) and Saturday (day 6) at 13:00 and exit KABAN at 14:10 UTC
- The return flight ICA4834 enters ORBB FIR thru KABAN on Thursdays (day 4) and Sundays (day 7) at 07:15 and exits at SIDAD 08:10 UTC.

Please see our website for additional information to include the Iraq AIP, and please call if you have any questions.
