Issue 1
2015

## **Application for Ferry Flight Permit**

## **Instructions:**

This form is to be attached to the operator formal letter and submitted to FSD at least (3) days prior to the desired start date.

| 1. Aircraft Identifications  |                    |                         |  |      |   |      |
|--|--------------------|-------------------------|--|------|---|------|
| a) Operator  | b) Address         |                         |  |      | 7 |      |
| c) AC Manufacture  | d) AC Type & Model |                         |  |      |   |      |
| e) Registration  | f) Serial No.      |                         |  |      |   |      |
| 2. Purpose of Flight   |                    |                         |  |      |   |      |
| a) Ferry Flight to base for repairs or maintenance                                       |                    |                         |  |      |   |      |
| b) Delivery, Demonstration   |                    |                         |  |      |   |      |
| c) Flights for the purpose of showing compliance with airworthiness standards            |                    |                         |  |      |   |      |
| d) Others (specify):   |                    |                         |  |      |   |      |
| 3. Flight Description  |                    |                         |  |      |   |      |
| From   | J.                 | То                      |  |      |   |      |
| Effective Date /   | / 20               | Termination Date / / 20 |  |      |   |      |
| Aircraft does not meet the airworthiness requirements as follows:                        |                    |                         |  |      |   |      |
| The following Maintenance conditions are considered necessary for safe operations:       |                    |                         |  |      |   |      |
|  |                    |                         |  |      |   |      |
| The following Operating conditions are considered necessary for safe operations:         |                    |                         |  |      |   |      |
|  |                    |                         |  |      |   |      |
| 4. Signatures  |                    |                         |  |      |   |      |
| I hereby certify that the aircraft described above is in a condition for safe operation. |                    |                         |  |      |   |      |
| Engineer Name  |                    | Cianatuus               |  | Doto | / | / 20 |
| License No.  |                    | Signature               |  | Date | / | / 20 |
